

DISCLAIMER: The voluntary carbon market disclosures below are made pursuant to California Assembly Bill (AB) 1305, Part 10 of Division 26 of the Health and Safety Code (passed 2023-10-07) as amended from time to time, also known as the Voluntary Carbon Market Disclosures Act (VCMDA). The VCMDA requires certain disclosures from business marketing and selling carbon offsets in California. These disclosures indicate BMO's relevant disclosures under Section 44475.

BMO is an intermediary and not the credit developer or project owner for the below described project. Therefore, BMO does not generate or manage the below provided data or information and cannot guarantee its accuracy. Rather, BMO relies on the relevant voluntary carbon registry and the data or information provided to that registry by the project owners, developers, and verifiers to comply with the VCMDA disclosures.

The information provided below is current as of November 25th, 2024.

California's Voluntary Carbon Market Disclosures Business Regulation Act (AB 1305)("VCMDA")

Project Name	Bundled Solar Power Project by Solararise India Projects PVT. LTD.
Registry	Verra Registry
Registry ID	1762
Registry Link	https://registry.verra.org/app/projectDetail/VCS/1198
Applicable Vintage	2019
Project Description	The main purpose of this project activity is to generate clean form of electricity through renewable solar energy source. The project is a bundled project activity which involves installation of 120 MW solar project in different states of India through SPVs. Over the 10 years of first crediting period, the project will replace anthropogenic emissions of greenhouse gases (GHG's) estimated to be approximately 213,089 tCO2e per year, thereon displacing 220,752 MWh/year amount of electricity from the generation-mix of power plants connected to the Indian grid, which is mainly dominated by thermal/fossil fuel based power plant. This project was open for public comment from 8 May - 7 June 2018. No comments were received.
Protocol	ACM0002: Grid-connected electricity generation from renewable sources
Project Location	India, Districts of Telangana, Karnataka, and Maharashtra
Project Timeline (BMO interprets this as the full crediting period of the project)	23/06/2016 - 22/06/2026
Project Start Date	June 23, 2016
Emissions Reduction Dates & Quantities Issued	The Emission Reduction Dates & Quantities Issued can be found on the registry's site for this Project: [Project Description]
Project Type	Energy industries (renewable/non-renewable sources)
Emissions Type	Avoided emissions
Standards Met	Project vintage meets the standard of ACM0002 as evidenced by registry listing and third party verification reports provided by Verra's site here [Verra Project Summary]

Durability	More information about durability can be found on Verra's website here: [Project
	<u>Description</u>]
Third Party Verifier	LGAI Technological Center, S.A. (Applus+)
Volume of emissions	244,968 Tons [Verra Project Summary]
removed or reduced	
annually	
Reversal Measures	More information about reversal measures can be found on Verra's website here: [Project
	<u>Description</u>]
