

BIOTECHNOLOGY ANALYST

GEORGE FARMER, PH.D.

George joined BMO Capital Markets Equity Research as an analyst covering Biotechnology in August 2018. Most recently, George was Chief Executive Officer of Cortice Biosciences, Inc., a privately held biotechnology company in New York City, and served as Vice President of Corporate Development at Synta Pharmaceuticals, a publicly traded drug development company in Boston. Prior to these positions, George was a Senior

Biotechnology Analyst for 12 years, working with Canaccord Genuity, Wachovia Capital Markets, and Fortis Securities. George also completed postdoctoral fellowships at Sloan Kettering Cancer Center and University of California San Francisco after receiving his Ph.D. from Columbia University. He also received a B.A. from Dartmouth College.
